

DELHI PUBLIC SCHOOL BANGALORE NORTH

ACADEMIC SESSION 2025-2026

ANNUAL EXAMINATION

SET: _____

SUBJECT: SCIENCE

CLASS: V SEC: _____

MAX MARKS: 60

DURATION: 2.5 HOURS

I. MULTIPLE CHOICE QUESTIONS:

(1X10=10 M)

1. Ravi wants to load a heavy box into a truck. Instead of lifting it straight up, he uses a ramp.

Why does using the ramp makes his work easier?

- ☐ a. It increases the weight of the box.
- ☐ b. It reduces the distance moved.
- ☐ c. It reduces the force needed.
- ☐ d. It changes the shape of the box.

2. A student pulls a rope to hoist a flag upward using a wheel and rope system.

Which simple machine is used?

- ☐ a. Pulley
- ☐ b. wedge
- ☐ c. wheel and axle
- ☐ d. lever

3. The force responsible for the paper pieces moving towards the plastic comb after rubbing on the head is called _____

- ☐ a. magnetic force
- ☐ b. frictional force
- ☐ c. electrostatic force
- ☐ d. gravitational force

4. Which of the following is NOT an example of energy transformation?

- ☐ a. Speaking
- ☐ b. Television
- ☐ c. Radio
- ☐ d. Candle

5. An empty farm near a village is used for dumping garbage. After a few months, the area smells bad, plants stop growing and animals often fall sick. This is caused due to _____

- ☐ a. Noise pollution
- ☐ b. Air pollution
- ☐ c. Land pollution
- ☐ d. Water pollution

6. Animal dung, especially that of cattle such as cows and buffaloes is used to produce a fuel called _____

- ☐ a. petroleum
- ☐ b. biogas
- ☐ c. coal
- ☐ d. LPG

7. Even when a person is sleeping or resting, the heart continues to beat and pump blood throughout the body without stopping. This action is carried out by _____

- ☐ a. voluntary muscles
- ☐ b. skeletal muscles
- ☐ c. cardiac muscles
- ☐ d. striated muscles

8. While playing, Tina rotates her arm in a circle at the shoulder and bends her elbow to throw a ball. Which joint is present in the shoulder?

- ☐ a. Hinge joint
- ☐ b. Ball and socket joint
- ☐ c. Gliding joint
- ☐ d. Pivot joint

9. Ravi accidentally touches a hot vessel. His hand is pulled back immediately before he feels the pain and only after a moment does he realize what happened. This shows that the response was first controlled by the _____.

- ☐ a. brain only
- ☐ b. heart
- ☐ c. muscles
- ☐ d. spinal cord

10. Involuntary actions such as breathing, heartbeat, digestion are controlled by the _____.

- ☐ a. cerebrum
- ☐ b. cerebellum
- ☐ c. brainstem
- ☐ d. spinal cord

II. NAME THE FOLLOWING:

(1X4=4M)

1. The substance that causes pollution.

2. The fixed point around which a lever turns.

3. A push or pull that makes an object move.

4. Strong bands of tissues that attach one bone to another.

III. ANSWER THE FOLLOWING:

(2X5=10M)

1. Give the difference between biodegradable waste and non-biodegradable waste along with an example.

2. Why is a screw better than a nail?

3. What are the different functions of the skeletal system?

4. With the help of a mind map mention any two types of simple machines with their advantage.
